Career Objectives

Aspiring Web Developer with skills in HTML, CSS, JavaScript, and React.js, seeking to leverage my passion for creating responsive, user-friendly websites. Eager to contribute innovative solutions and grow within a dynamic, collaborative environment. My goal is to continually enhance my technical abilities while delivering impactful web solutions that align with business objectives.

Work Experience

- **Frontend Developer | HOLA9 CLASSIFIEDS INDIA PRIVATE LIMITED** | October 2023 - Present
  - Developed and maintained responsive, user-friendly websites using HTML, CSS, JavaScript, and React.js.
  - Collaborated with the design and backend teams to implement functional and appealing web features.
  - Developed reusable code and components to streamline future development.
  - Ensured mobile-first design principles and responsiveness for diverse devices.
  - Maintained and improved company websites, enhancing UX/UI for better user engagement.
  - Assisted in troubleshooting and debugging applications, ensuring smooth functionality.
- **Freelancing** | Music industry website | 🔗 **Check Live Version**
  Developed and maintained a platform that simplifies the process for artists to register their musical works, Optimize revenue collection through industry partnerships, and leverage innovative technologies.

Projects

- **Lenskart clone**   🔗 **Check Live Version**
  The Lenskart Clone project is an e-commerce website replicating Lenskart's functionality. It features user authentication, product browsing, detailed product pages, a shopping cart, secure checkout, and order management. Built with HTML, CSS, and JavaScript, it offers a seamless, responsive user experience for buying eyewear online.
- **Bakery website**   🔗 **Check Live Version**
  The Responsive Bakery Website project showcases a modern and user-friendly online platform for a bakery. Built using HTML, CSS, JavaScript, and Bootstrap, it features a visually appealing design with sections for product listings, and custom orders. The website ensures a seamless browsing experience across all devices, highlighting the bakery's offerings and facilitating online orders.
- **Travel Agency Website**   🔗 **Check Live Version**
  The Travel Agency Website is a responsive platform with HTML, CSS, JavaScript, and Bootstrap. It showcases travel packages, destinations, and services with detailed descriptions, images, and booking options.
